

DISTRICT HANDBOOK 2025 Thiruvananthapuram

ECONOMICS AND STATISTICS DISTRICT OFFICE THIRUVANANTHAPURAM

DISTRICT HANDBOOK 2025

ECONOMICS AND STATISTICS DEPARTMENT DISTRICT OFFICE, THIRUVANANTHAPURAM

Message

The District Handbook 2025, Thiruvananthapuram represents a commendable effort by the Department of Economics and Statistics to provide the essential data required for informed regional planning. By offering a detailed overview of key socioeconomic indicators-including agriculture, demographics, industry, and public health-this publication serves as a vital resource for the district.

I would like to extend my sincere appreciation to Sri. Anish Kumar B, Deputy Director, and his dedicated team for their meticulous work in compiling this volume. It is my hope that this handbook becomes an indispensable tool for policymakers, researchers, and planners alike.

District Collector

Message

The Department of Economics and Statistics has been collecting, consolidating, analysing and publishing various statistics of socio-economic fields in the State. The field level staffs at the Taluk and District level collect the data from various sectors and are consolidated at Directorate level. Various indices and reports are prepared and published in this regard.

It is very glad to know that Economics and Statistics, District Office, Thiruvananthapuram is publishing District handbook 2026 containing the base level data of Thiruvananthapuram district. It reveals the status of Thiruvananthapuram district in various fields like Agriculture, Education, Tourism, etc. I hope that the data in this book will catalyse the decentralized planning process and the developmental activities at the bottom level.

I express my sincere gratitude to Mr. Anish Kumar B, Deputy Director and his staff, who worked behind this publication. This handbook will be a valuable tool for the policymakers, planners, researchers and academicians to understand the current status of the district and to tailor the development strategies suitably.

Anish Kumar B. Deputy Director

Date.....

ABOUT THE BOOK

The District Handbook 2025, Thiruvananthapuram , is a flagship initiative of the Department of Economics and Statistics, meticulously designed to address the growing need for data-driven planning and development. This volume presents a comprehensive statistical profile of both the District and the State, with particular emphasis on key sectors such as Agriculture, Demography, Education, Industry, and allied fields.

We tried our best to ensure the inclusion of the most recent and reliable data, sourced directly from authenticated government publications and administrative offices. I hope this handbook will serve as a premier reference for administrators, planners, researchers, and academicians.

I express my sincere gratitude to my dedicated team Smt. Anita Biju, Sri. Martin Joseph, Smt. Brijila A.S, Smt. Chitra J.V, Smt. Sudhishna, Smt. Priya Kumari V.P, Smt. Ajitha and Sri. Anoop V -whose collaborative efforts and commitment have been instrumental in bringing out this publication.

Constructive suggestions for improving future editions of this handbook are most welcome.

Deputy Director

THIRUVANANTHAPURAM

1 INTRODUCTION

Thiruvananthapuram district, situated at the southernmost part of Kerala, is characterized by a diverse physical landscape extending from the long Arabian Sea coastline to the elevated Western Ghats. The district includes coastal plains, fertile midlands, hilly regions, and forest-covered highlands. Important rivers such as the Karamana and Neyyar flow through the district, providing water for agriculture and drinking purposes. Its natural features support a wide variety of ecosystems, making the region rich in biodiversity.

After the formation of Kerala in 1956, Thiruvananthapuram became the state capital, growing into an important hub for governance, education, science, technology, and the arts. Thiruvananthapuram has been a prominent centre of culture, trade, and administration.

1.1 Revenue Structure

Revenue-wise, Thiruvananthapuram is one of the most significant districts of Kerala, functioning as the administrative headquarters of the No index entries found. state. It consists of multiple revenue divisions, taluks, and villages that ensure effective governance and resource management.

The district contributes substantially to the state's economy through sectors such as government services, tourism, information technology (with Technopark as a major hub), trade, education, and healthcare. Agriculture and fisheries also add to the district's revenue base, especially in rural and coastal areas.

4 AGRICULTURE

Agriculture plays an important role in the rural economy of district. The district's landscape, consisting of coastal plains, midlands, and highlands, supports a diverse range of crops. Coconut, paddy, banana, and vegetables are the major agricultural products, while rubber, pepper, and other plantation crops are cultivated in the hilly regions. The tropical climate and fertile soil make the district suitable for year-round farming activities.

4.1 Land use pattern 2023-24

Classification	Area in Ha	%
Forest	49861	22.79
Land put to Non Agricultural use	40366.3	18.45

Water logged Area	26	0.01
Still water	2695.59	1.23
Marshy Land	0.79	0
Net Area Sown	120245	54.96
Total geographical area	218781	100

Thiruvananthapuram district focus on improving productivity and sustainability on small landholdings through scientific and digital methods. Farmers increasingly use protected cultivation such as polyhouses and shade-net houses for vegetables and flowers, along with micro-irrigation systems like drip and sprinkler irrigation to conserve water. Organic farming techniques, bio-fertilisers, and eco-friendly pest control methods are encouraged, especially through Kudumbashree and farmer collectives.

4.2 Paddy Area and Production (2016-17 to 2024-25)

Year	Area (in Ha)	Production (Tonnes)	Productivity (Kg/Ha)

5 FLORICULTURE

The potential of floriculture has significantly energized the agricultural sector, especially in Thiruvananthapuram. With the growing demand for flowers during festive seasons like Onam, local production has become a priority. Various institutions and government bodies, including the Agricultural Department, local bodies, the Employment Guarantee Scheme, Kudumbashree, and agricultural cooperatives, are collaborating to encourage collective efforts in flower cultivation. These initiatives aim to promote selfsufficiency in flower production, reduce dependency on external sources, and provide sustainable livelihoods for local farmers and communities. This year, a variety of flowers are being cultivated locally such as Bandi , Marigold , and Vadamulla etc.

7 SOIL TYPE

The topography of the district is classified into three parts: the highlands (76,893.34 ha), which consist of high hills and valleys between them, the low-lying middlelands (1,15,036.7 ha), and the low-lying coastal region (27,270 ha). Varkala, Chirayinkeezhu, and Thiruvananthapuram taluks are spread across the Edanad, Nedumangad taluk is spread across the Edanad-Malanad areas, and Neyyattinkara taluk is spread across these three. Laterite type of soil is widely found in the district. Soils like alluvial soil, clay soil, and red soil are found in the district.

7.1 Soil Type

9 ANIMAL HUSBANDRY

Animal husbandry is an important component of the agricultural economy of Thiruvananthapuram district, contributing significantly to rural livelihoods, employment generation, and nutritional security. The sector mainly includes dairy farming, poultry rearing, goat farming, and backyard livestock practices, with dairy farming being the most prominent activity. Various government initiatives such as veterinary healthcare services, artificial insemination, vaccination programs, and farmer support schemes have improved livestock productivity and income levels. Overall, animal husbandry plays a vital role in strengthening the rural economy and ensuring a steady supply of milk, meat, and eggs in Thiruvananthapuram district.

11. FISHERIES

Fisheries is a significant economic activity in Thiruvananthapuram district, contributing to employment, income generation, and food security, especially among coastal and inland communities. With a long coastline along the Arabian Sea, the district supports a vibrant marine fisheries sector, while inland fisheries are practiced in rivers, backwaters, ponds, and reservoirs. A wide variety of fish species are harvested through traditional and mechanized fishing methods, supported by fish landing cent, harbours,

and cooperative societies. Government initiatives, infrastructure development, and welfare schemes for fishermen have strengthened the sector, making fisheries an important component of the district's economy and a vital source of protein for the population.

12. INDUSTRIES

Industries play a vital role in the economic development of

Thiruvananthapuram district by generating employment, income, and supporting regional growth. The district has a diversified industrial base that includes traditional industries such as coir and handloom, along with modern sectors like information technology, electronics,

biotechnology, and space research. Major hubs such as Technopark and public sector undertakings like HLL Lifecare Limited and Vikram Sarabhai Space Centre, along with small-scale and cottage industries, strengthen the district's industrial profile and provide livelihoods to many people to a large number of people, especially in rural areas.

Gender data: Women's participation showed a notable improvement, rising from 32.91% to 36.31%. which is also higher than state average

13.8 Self -Employment Scheme

There are five self-employment schemes that provide loan subsidy to the unemployed to find self-employment.

1. Kerala State Self Employment Scheme for Registered Unemployed

It is an individual/joint self-employment scheme implemented in association with the Bank for self-employment of unemployed candidates whose names are registered in the Employment Exchange. 48,99,080/- has been sanctioned as subsidy to a total of 266 beneficiaries in Kerala during the financial year 2024-25. 2,33,730/- has been allotted as subsidy to 13 beneficiaries in Thiruvananthapuram district. Multi - Purpose Service Centers / Job Club.

2. Multi - Purpose Service Centers / Job Club

In the financial year 2024-25, a total of 13 joint ventures in Kerala have been allocated Rs.27,72,298 as subsidy.

3 Saranya

Women between the ages of 18 and 55 whose annual family income does not exceed Rs 2 lakh can get an interest-free loan of up to Rs 50,000. 50% of the loan amount can be availed as subsidy up to a maximum of Rs.25,000. In the financial year 2024-25, a total of 1,399 beneficiaries have been sanctioned as loan/subsidy of Rs.6,99,93,974. In Thiruvananthapuram district, a total of 162 beneficiaries have been allotted Rs.81,12,974/- as loan/subsidy.

4. Kaivalya

A comprehensive vocational rehabilitation scheme called Kaivalya is being implemented for differently abled persons registered in employment exchanges. In the financial year 2024-25, under the Kaivalya Self-Employment Scheme, self-employment loans of Rs.1,00,00,000/- have been sanctioned to 200 beneficiaries at the state level, including a total of Rs.12,50,000/- to 25 beneficiaries in Thiruvananthapuram district.

5. Navajeevan

This scheme provides 25% government subsidy of bank loan amount up to Rs.50,000/- for self-employment to unemployed and literate senior citizens in the age group of 50-65 years and whose individual annual income does not exceed Rs.1 lakh. A subsidy of Rs.49,98,950/- has been sanctioned to a total of 408 beneficiaries in Kerala during the financial year 2024-25. 7,00,000/- has been sanctioned as subsidy to 24 beneficiaries in Thiruvananthapuram district.

14. TRANSPORTATION & COMMUNICATION

Thiruvananthapuram is connected to all places by means of roadways, railways and airways. The railway in Thiruvananthapuram district is under division of Southern Railway. The total length of the railway line in this district is 82 KM. The roadways in Thiruvananthapuram district are well developed. The total length of PWD road is 1552 KM. Thiruvananthapuram International airport provides both domestic and international services. The water bodies in Thiruvananthapuram are suitable for water transportation.

14.9 Road Accidents

In recent years, there has been a general trend of increasing road accidents, primarily due to the growth in vehicle ownership and traffic congestion. Over-speeding, drunk driving, and lack of awareness about road safety rules are common contributing factors. Inadequate road infrastructure, including poorly maintained roads and lack of pedestrian facilities, can contribute to accidents. The Kerala government has implemented

various measures to improve road safety, including stricter enforcement of traffic laws, construction of better roads, and public

awareness campaigns. The use of technology, such as speed cameras and traffic monitoring systems, has helped improve road safety.

15. EDUCATION

Education empowers individuals with knowledge, skills, and values that improve personal growth, employability, and responsible participation in society. Education plays a crucial role in Thiruvananthapuram by supporting its growth as Kerala's administrative and knowledge capital, with institutions like the University of Kerala, IISER, and Technopark-linked training centers producing skilled professionals for governance, research, IT, and public services, thereby boosting employment and socio-economic development.

16. TOURISM

Tourism plays a vital role in economic development by generating employment, boosting local businesses, improving infrastructure, and promoting cultural exchange while preserving natural and cultural heritage. In Thiruvananthapuram district, tourism is especially significant due to its unique blend of natural beauty, historical importance, and cultural richness. The district is renowned for its pristine beaches such as Kovalam and Varkala.

Its heritage sites like the Padmanabhaswamy Temple and Napier Museum, serene backwaters, wildlife sanctuaries, and its role as the capital city of Kerala. Tourism in Thiruvananthapuram supports livelihoods in hospitality, transport, handicrafts, and allied sectors, while also contributing to sustainable development and global recognition of Kerala's culture, traditions, and eco-tourism potential.

18. IRRIGATION

Irrigation is crucial for agricultural development as it ensures a reliable water supply, increases crop productivity, reduces dependence on monsoon rainfall, and supports food security and rural livelihoods. In Thiruvananthapuram district, irrigation plays an important role in sustaining agriculture, particularly paddy cultivation, coconut groves, and horticulture.

tural crops. The district's irrigation system includes major projects like the Neyyar and Peppara dams, along with minor irrigation schemes, canals, ponds, and wells, which help regulate water availability during dry seasons.

20. CO-OPERATION AND BANKING

Co-operation and banking are vital for economic development as they promote financial inclusion, encourage savings, support balanced regional growth, and provide credit to farmers, small entrepreneurs, and self-help groups. In Thiruvananthapuram district, the co-operative and banking sector plays a significant role in strengthening the local economy through a strong network of co-operative societies, district co-operative banks, primary agricultural credit societies, commercial banks, and regional rural banks. These institutions support agriculture, small-scale industries, fisheries, and women-led initiatives such as Kudumbashree,

22. STATE INCOME

For the year 2024-25, Kerala's Gross State Domestic Product (GSDP) at current prices is estimated at 11.15 lakh crore, reflecting the overall scale of economic activity within the State during the year. State and District Income estimates for a given year measure the value of goods and services produced within the geographical boundaries of a region and provide an aggregate view of the size and structure of the economy. Within this framework, Thiruvananthapuram district recorded a Gross District Domestic Product (GDDP) of about 1.1 lakh crore, underscoring its significance in the State economy. The district experienced a strong rebound in economic activity in the post-COVID period, after which growth moderated to around 9%, indicating a shift towards more stable and sustained expansion. This growth has been largely supported by servicesector activities such as financial services, trade, and transport, which constitute the core of the district's economic structure. The district-level estimates for 2024-25 are Quick Estimates and are subject to revision in subsequent releases.

In 2024-25, Thiruvananthapuram district recorded a Gross District Domestic Product of about 1.1 lakh crore at current prices, highlighting its importance in Kerala's economic structure. The district's economy is predominantly service-oriented, with the tertiary sector accounting

for 78% of total gross value added at current prices. The secondary sector contributes 15.9%, while the primary sector accounts for only 6.1%, indicating a limited role for agriculture and allied activities. This composition reflects the district's urban and administrative character.

Per capita income serves as an important indicator of the average income level of the population and reflects the overall economic wellbeing of a region. In 2024-25, Kerala recorded a per capita income of 310348.3 at current prices, while Thiruvananthapuram district registered a higher per capita income of 326014.3. The district has remained above the state average in per capita income since 2021-22, indicating relatively higher income generation per person. This trend is largely associated with the district's service-oriented economic structure and the concentration of salaried and formal employment.

23. PUBLIC DISTRIBUTION SYSTEM

The Public Distribution System (PDS) is a government-supported food security program in India aimed at ensuring the availability of essential commodities at affordable prices to vulnerable sections of society. Under this system, items such as rice, wheat, sugar, and kerosene are procured by the government and distributed through a network of Fair Price Shops (ration shops). It is well known that Kerala had one of the best run and most effective PDS networks in India.

24. POLICE

The police play a vital role in maintaining law and order and ensuring the safety and security of people. The district police actively work to prevent cybercrime, drug abuse, and social offences through surveillance, patrolling, and community policing initiatives such as Janamaithri Police. By responding promptly to emergencies, enforcing laws impartially, and fostering public trust, the police in Thiruvananthapuram contribute significantly to social stability, peaceful coexistence, and the overall development of the district.

24.3 Crime

Crime in Thiruvananthapuram district is generally moderate compared to many urban regions, but it reflects the challenges of a rapidly developing capital city with high population density and mobility. Commonly reported crimes include theft, traffic-related offences, cybercrime, domestic violence, and drug-related cases, especially among youth. Being an administrative and

IT hub, the district faces increasing cyber offences and financial fraud, which require advanced policing and public awareness. The police focus on preventive measures such as night patrolling, surveillance, community policing, and awareness programs in schools and neighbourhoods. Effective crime control in Thiruvananthapuram is essential for ensuring public safety, protecting tourists and institutions, and maintaining the district's reputation as a safe and well-governed region.

25. INTEGRATED CHILD DEVELOPMENT SERVICES

The Integrated Child Development Services (ICDS) is a flagship welfare programme of the Government of India aimed at improving the health, nutrition, and overall development of children below six years of age , as well as pregnant and lactating women. Implemented through Anganwadi centres , ICDS provides a package of services including supplementary nutrition, immunization, health check-ups, nutrition and health education, referral services, and pre-school education . The programme plays a vital role in reducing malnutrition, infant and maternal mortality , and promoting early childhood care and development.

27. BUILDING STATISTICS

Building statistics are important for effective urban and regional planning, as they provide accurate data on the number, type, use, and growth of buildings, helping governments make informed decisions on infrastructure, housing, and public services. In Thiruvananthapuram district, building statistics play a crucial role in monitoring rapid urbanization, especially in the capital city and surrounding areas, by supporting town planning, disaster management, housing schemes, and sustainable development initiatives.

28. PRICE STATISTICS

Economics and Statistics department regularly collect wholesale and retail prices of essential commodities, agricultural products, fruits, vegetables,

coconut and its products etc. Price statistics are important for understanding changes in the cost of living, measuring inflation, and guiding economic planning and policy decisions. In Thiruvananthapuram district, price statistics elp monitor price trends of essential commodities, services, and housing in both urban and rural areas, enabling the government to regulate markets, plan welfare schemes, and ensure price stability.

32 EXTREME POVERTY

The Extreme Poverty Eradication Project (EPEP), also known as the Athi-daridrya Nirmarjana Project , is a flagship initiative of the Government of Kerala aimed at identifying and uplifting families living in extreme deprivation. Unlike traditional poverty alleviation programs, EPEP focuses on the most vulnerable individuals who are often outside existing support systems, addressing their needs across four critical dimensions: food security, healthcare, housing, and stable income. In the Thiruvananthapuram District, the project has demonstrated significant success, identifying 7,278 individuals in extreme poverty and successfully integrating 6,204 into localized micro-plans to ensure their sustainable recovery.

As part of a comprehensive social welfare strategy, the EPEP empowers local governments to provide tailor-made solutions such as cooked meals, specialized medicine, and safe housing, ultimately striving to make Kerala the first state in India to be entirely free of extreme poverty.

32.1 General Status of Extreme Poverty Eradication

Particulars	Number
Total Extremely Poor Identified in District	7,278
